COURSE INFORMATION:

This course presents the philosophy, principles, assessment and treatment strategies of the NDT/Bobath Approach as applied to the management of adults with hemiplegia and allied neurological conditions. This course fulfills requirements established by the Neuro-Development Treatment Association Inc. (NDTA Inc.) for recognition as an approved certificate course. Course graduates are entitled to take NDTA Inc. approved advanced courses.

The overall course length is 16 days in the 4 x 4 format. Training is provided in four day segments, 3 to 4 weeks apart to make up the 16 days of the course. The usual day is 8:00 to 4:30 (with lunch from 12:00 to 1:00), which works out to 112 contact hours. Participants must have a minimum of one year clinical experience following graduation, including a minimum of one year clinical experience with adult hemiplegia (although there is a little flexibility with the second requirement).
